

Application notes

Application Note : March 2020

Market involved : HVAC

Product : DIA02

Customer : -

Subject : High level of air quality in battery rooms

CUSTOMER ISSUE :

In battery rooms there is an extraction fan to reduce the hydrogen concentration in the air.

In case of fan failure, the air quality can't be guaranteed.

OUR SOLUTION :

The DIA02 relay immediately signals the fan status to the controller of the system.

BENEFITS :

- Air quality level is high and, if this doesn't happen, the Building controller triggers the maintenance team.
