## Application notes

**Application Note : June 2021**

**Market involved : -**

**Product : DPD02, DPD Manager Apps**

**Customer : OEMs**

**Subject : Enhanced productivity**

### CUSTOMER ISSUE :

The user needs to quickly know which of the configured alarms has tripped to solve the problem with the installation as soon as possible.

### OUR SOLUTION :

With the DPD Manager via NFC communication, we provide a tool that displays real-time operating data such as: alarm status, readings of measured variables and last triggered alarm.

### BENEFITS :

- Productivity of the installation is guaranteed through simple and immediate troubleshooting, without the need for any additional tools for data visualization (e.g. PLC).
- The user is facilitated in tracing the cause of the problem, saving maintenance time.
